P C M 3 3 0

easy

PCM (Professional Catamaran Manufacturing) is introducing.

We are a foreign boat builder company, having production line, located in Antalya Free Zone Turkey and specialized in Multihulls designed by Schionning Designs Australia. www.schionningdesigns.com.au

Our catamarans built with cored **(DIAB PVC foam)** composite construction techniques using epoxy or vinylester resin **(SICOMIN/HEXION or DSM)** and stitched fabrics like biaxial/quadraxial.

We are very pleased to announce our new contemporary lined **Power Catamaran PCM 330!**

safe

economical ride unmatched

PCM 330 has semi-displacement hulls that make them very efficient at most speeds.

It means small engines and economical fuel consumption!

PCM 330 **can take rough sea**, because of narrow entrance and semi-displacement hulls shape that does not need to step on plane to reach to a high speed. If she goes 2knots or 20knots the hulls are parallel to the water and the angle of the boat to the water stays the same.

PCM 330 is having a huge distance from the waterline up to the bridge deck that prevents water slamming under the bridge deck and **gives you a smooth ride feeling.**

Engines HP can be upgrade or downscale (between 2 x 25hp-2 x 250hp) according to customer application. **She has 14kts cruise and 18kts top speed with 2x40hp 4 stroke outboards.** The speed can go up with bigger engines.

LOA	10m
------------	-----

Beam	4,60m
-------------	-------

(perfect for marina mooring)

Draft	0,50m
--------------	-------

PCM 330 has **2 Double Cabin in the front + 1 Cabin in the starboard aft + 1 big Bathroom** (2.5m long) having 2 separate washbasin with hot/cold pressure water and shower in the port aft. Inside this bathroom there is a door that brings you to a separate Head with its own washbasin with hot/cold pressure water.

comfortable

Galley is up on the bridge deck together with saloon. There is a wooden table and bench seating for 6 people which are convertible to a double bed as well in the saloon. Panoramic view through non-opening windows all around is one of her pleasant offers. The generous cockpit allows boarding through doors on either side and has seating for 8 people together with two handcraft wooden tables.

PCM 330 has a special feature! **A huge aft trampoline that is a continuance of diving platform gives you total 7m² areas.**

PCM 330 is an excellent boat that offers you easy, fast, comfortable, safe and economical ride unmatched by similar cats.

STANDART LIST OF P C M 3 3 O

HULL + DECK + BULKHEADS

- Outside isophtalic gel coat
- Quadraaxial stitch glass
- Epoxy or Vinylester resin (from HEXION www.hexionchem.com or DSM www.dsmcompositeresins.com)
- PVC Foam (from DIAB www.diabgroup.com)
- The boat has 18 Bulkheads 9 on each hull. 4 of them go across from one hull to the other. All are done with PVC vacuum technology.

EQUIPMENTS

Deck equipments

- Stainless Steel railing 316L
- 6 Stainless Steel cleats
- 16 Teak steps (front deck + aft platform)
- 1 Stainless Steel anchor roller
- 1 Anchor Trefoil 9kg
- Chain 8mm, between 20m to 100m
- Rope 10mm, 30m
- 4 Fenders
- 1 Flag holder
- 4 Navigation and 1 anchor light
- 1 x 12V Horn
- 2 Horseshoe Life Buoy Complete Set

4 bilge pump + 4 automatic floats

2 Manuel bilge pump

Fresh Water System

- 1 x 12V Fresh water pump 12lt/min.
- 1 x 170 lt Vetus fresh water tank
- Galley, Bathroom and Toilet water pipes
- Pressure water system
- 220V Hot Water Boiler 20lt (Mobitherm by Waeco)

Head

- Access through handcraft wooden door made with maple and mahogany root framed. (Including locking system)
- 1 Hand-operated marine toilet (Large)
- 1 washbasin with hot and cold water mixer tap
- 1 x 12V Spot light
- 1 Mahogany root framed mirror
- Toilette accessories
- Custom built shape flooring made with mahogany (50mm wide) and maple (5mm wide) veneer strips.
- Ventilation via 2 opening portholes (1 is viewing between the hulls and 2nd outside)

Bathroom

- Access through handcraft wooden door made with maple and mahogany root framed. (Including locking system)
- Counter top with built-in 2 separate washbasins
- 2 hot and cold water mixer taps
- 1 hot and cold water mixer tap for shower
- 1 Teak shower collector drained by electrical pump
- 1 Mahogany root framed mirror
- 1 x 12V water proof spot light
- 1 x 220V water proof socket
- Towels
- Ventilation via 1 opening porthole views outside

Front Starboard Double Cabin

- Access through handcraft wooden door made with maple and mahogany root framed. (Including locking system)
- Custom built shape flooring made with mahogany (50mm wide) and maple (5mm wide) veneer strips.
- 3 Teak stairs for the bed
- 1 double bed with mattress (approx.

1.40m x 2m)

- 1 opening dressing-table made with mahogany root veneer
- 1 opening mahogany root framed mirror
- 1 Closet
- 1 Set of bedding, pillows, blanket
- 2 x 12V Spot light
- Ventilation via 1 opening Deck Hatch 40 x 50cm and 2 opening portholes views outside
- 1 x 220V Socket

Front Port Double Cabin

- Access through handcraft wooden door made with maple and mahogany root framed. (Including locking system)
- Custom built shape flooring made with mahogany (50mm wide) and maple (5mm wide) veneer strips.
- 3 Teak stairs for the bed
- 1 double bed with mattress (approx. 1.40m x 2m)
- 1 opening dressing-table made with mahogany root veneer
- 1 opening mahogany root framed mirror
- 1 Closet
- 1 Set of bedding, pillows, blanket
- 2 x 12V Spot light
- Ventilation via 1 opening Deck Hatch 40 x 50cm and 2 opening portholes views outside
- 1 x 220V Socket

Aft Starboard Cabin

- Access through handcraft wooden door made with maple and mahogany root framed. (Including locking system)
- Custom built shape flooring made with mahogany (50mm wide) and maple (5mm wide) veneer strips.
- 1 bed with mattress (approx. 1.10m x 2m)
- 1 Set of bedding, pillows, blanket
- 1 closet and 1 mirror
- Large front accessed stowage

space under the bed.

- 1 x 220V Socket
- 1 x 12V Spot light
- Ventilation via 3 opening portholes (1 is viewing between the hulls and 2 of them outside)

Saloon

- Saloon accessible through 2 full length sliding glass (laminated), aluminum framed doors
